## SHELL AVIATION KARRATHA AIRPORT

### Aviation Depot Upgrade

**Customer:** Shell Aviation  
**NRM Customer:** Shell Aviation  
**Project Value:** 1.4 Million  
**Period of Project:** March 2013- July 2014  
**Description of Project:**

March saw the start of NRM's latest major project in Karratha, Western Australia. Once again NRM was contracted by Shell Aviation to upgrade their depo, including the demolition of their existing tanks as well as the reconstruction of all new mechanical and electrical equipment

Current works in NRM's scope are:

- Installation of four new 110 KI Tanks
- Piping fabrication and installation including supports
- Mechanical equipment supply and installation
- All structural steel works
- All Electrical works such as installing switchboard control panels, level gauges and intrinsically safe junction boxes.

This project was completed successfully in July 2014.
